

CYBERSECURITY STRENGTHENS U.S. MANUFACTURERS

Cybersecurity protects the confidentiality, integrity and availability of your information. A cybersecurity program provides advantages for small and mid-sized manufacturers:

Improve Recovery Times After Disruptions

Avoid Potential Losses

Protect Valuable Data

Ensure Employee and Customer Privacy

Mitigate Risks

Reality of Cyber Attacks and Breaches

61% of small businesses have experienced a cyber attack in the past 12 months.

58% of cybercrime victims are identified as small businesses.

34% of all documented attacks targeted manufacturers.

\$60K is the median cost of a data breach.

Common Types of Attacks and Breaches

5 Steps to Reduce Cyber Risks

Protecting the information of your company, employees, and customers is an ongoing process. Manufacturers will benefit from a program that:

Defense Suppliers: Compliance

Manufacturers in the DoD supply chain had until **December 31, 2017** to be in compliance with new DFAR cybersecurity requirements.
